- Practical supportive advice for parents and carers involved in the therapy process. Individualised programmes delivered in one to one therapy sessions
- Group therapy programmes available where appropriate - speech therapy specific groups + combined OT/SP groups
- Collaboration with, and referral to, other relevant professionals involved or required in the child's care, eg: teachers, childcare providers, allied health professionals, GPs and medical specialists
- Private health fund and Medicare rebates are available
- Skillbuilders Therapy team are registered providers with:
  - Better Start
  - Helping Children With Autism
  - MyWay/NDIS

## WHEN TO SEEK SPEECH PATHOLOGY SERVICES:

At Skillbuilders we see children who have difficulty:

- Speaking at a development level that is right for their age
- Making their speech clear and understandable
- Understanding others who speak to them
- Expressing themselves with age appropriate vocabulary and grammar
- Engaging in conversations and interacting with their peers
- Understanding the relationship between sounds and letters
- Sequencing sounds and letters for reading, spelling and writing
- Using a clear normal voice
